## What is SmartVoice IMRS?

SmartVoice IMRS (Internet Messaging Recording System) allows you to manage and supervise your trading communications for regulatory purposes. Agents can record text, audio and video messages from IM applications such as WeChat and WhatsApp which can be stored and saved for record keeping. By taking precautionary methods, the risk of fraud and compliance breaching is minimized.

## What are the regulatory requirements?

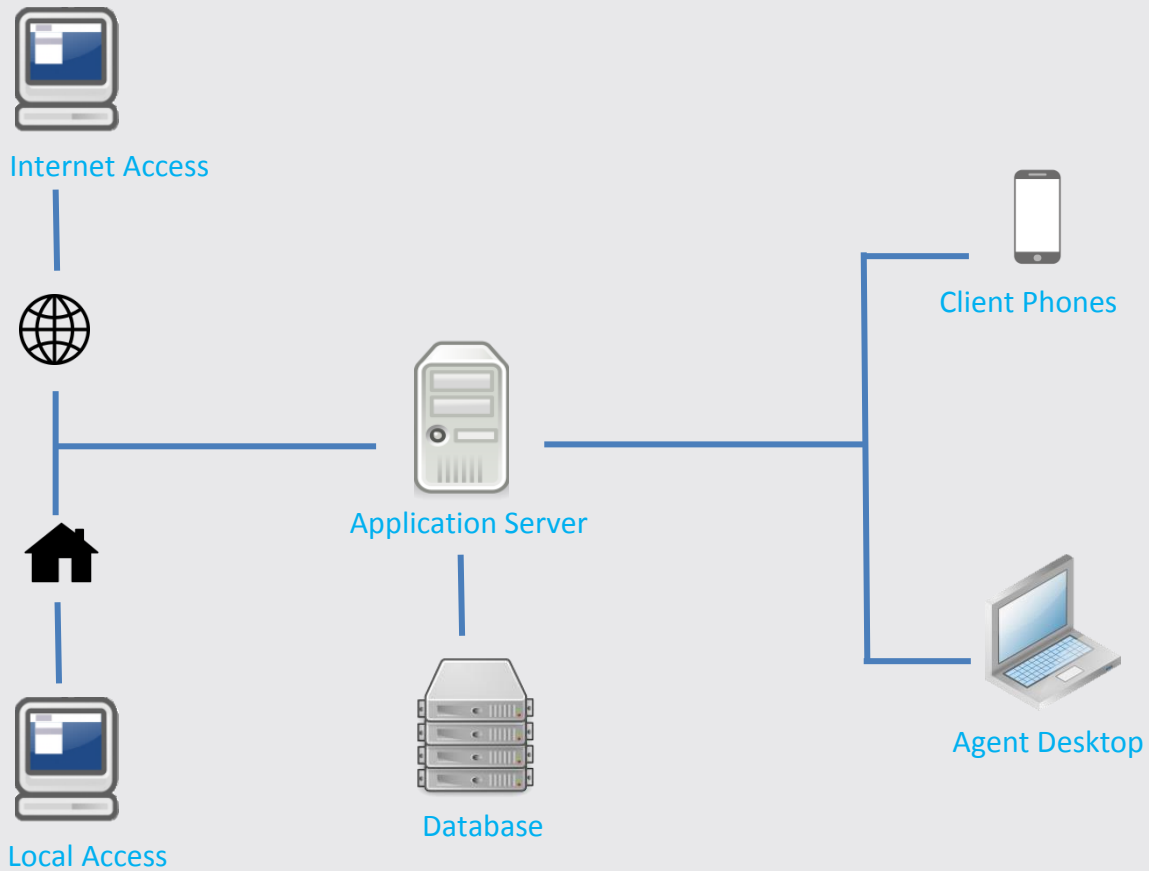

In the case of IM applications, intermediaries are required to maintain control of order messages and ensure proper record keeping. All order messages should be readily accessible for compliance monitoring and audit purposes.
